

# JUMPROPE PUTS ACCURATE AND CURRENT INFORMATION ABOUT ATTENDANCE, CHARACTER, AND STANDARDS-BASED GRADING AT YOUR FINGERTIPS.

We believe that educators deserve modern tools that fit their philosophy and help them innovate. JumpRope's features are built to be easy, fast, and powerful. Take a look.

## QUICK, EASY, AND ACCURATE ATTENDANCE.

In less than sixty seconds, a teacher can log in and submit attendance data. In the process, they can see attendance entered throughout the day and in real time identify students who may be cutting or showing up for the first time.

## COLLECT, TRACK, AND SUPPORT CHARACTER EDUCATION.

JumpRope collects anecdotal data on student character and behavior, and manages the follow-up and resolution of issues. In the process, you collect a comprehensive history of each students' behavior from all perspectives, positive and negative.

## TRUE STANDARDS-BASED PLANNING AND TRACKING.

Imagine a gradebook and curriculum planning tool that is entirely focused on standards and backwards design. JumpRope's mastery tracking tools are built from the ground-up around standards, and can completely replace traditional grading.

## OTHER TOOLS TO COORDINATE STUDENT ACHIEVEMENT:

### Student & Parent Portal

Log in online to view your schedule, grades, and attendance

### Backoffice & Admin Console

Manage school-wide data and reporting, and customize JumpRope to fit your culture.

### Network Dashboard

If you work within a network of schools or teachers, data is available in real time.

### Post-Secondary Tracking

Ever wonder how your students do in college? JumpRope can help you track college enrollment and compare your students to the rest of the country.

### Applications & Matriculation:

Enable online applications to your public, private, or charter school, and manage it online.

## REACH OUT!

WE LOVE TO CONNECT WITH PASSIONATE EDUCATORS. LET US HELP COORDINATE YOUR STUDENT ACHIEVEMENT.
